EXPERIENCE

Wrtn Technologies — Product Designer 2025.02 – 2026.05

- Designed AI search and LLM-based chat products used by more than 5M monthly active users.
- Created entertainment AI features, such as a visual novel-style chat experience, that boosted engagement by 42% and grew revenue by about 20%.
- Redesigned productivity tools, improving user engagement and satisfaction by 18%.
- Partnered with PMs, engineers, and CPO to define product requirements and launch new AI features.
- Built front-end prototypes and maintained the design system to speed up iteration and keep UI consistent.
- Developed an AI-powered internal tool for use by 50+ employees, which reduced repetitive internal work and improved team efficiency.
- Analyzed user feedback, Mixpanel data, A/B test results, and 1,000+ survey responses to improve products for Korean and global users.

Accenture — Design Senior Analyst 2022.08 – 2025.01

- Delivered 1,000+ screens for global products from Samsung, KDDI, Daiwa Securities, Japan Post, LY Corporation, and government organizations used by 10M+ users.
- Redesigned digital experiences for products in 65+ countries, achieving up to 34% higher purchase conversion rate and record-high seasonal sales performance.
- Built and maintained design systems for multiple products to ensure consistency across UI components and design standards.
- Conducted 10+ interviews with international clients in English, Korean, and Japanese.
- Mentored junior designers and supported design reviews for client projects.

Deloitte Consulting — UX Design Intern 2021.06 – 2021.08

- Led user research, competitor analysis, and prototype development for Kia Motors' CRM project.

Yahoo! Japan — UI Design Intern 2020.09

- Assessed user engagement rate for sidebar banners through user interviews and performance data; proposed a new UI design to increase user interaction by 15%.
